

## Safe & Clean Workspace

Beambox meets the Class 1 laser standard and is safe under all conditions of normal use. Integrated ventilation device prevents the materials from catching fire and extracts smoke and fumes

## Intuitive and Ready to Use

Control and monitor your Beambox at your fingertips with the touch panel. Use the built-in camera to align your design. Compact water cooling system takes simplicity to a whole new level.

## Friendly Software For All

Compatible with Windows, macOS & Linux, its intuitive user interface allows you to easily access all features of Beambox, enables multi-computer control and supports JPG / PNG / SVG / DXF files.
